

VIDEO GAME DESIGN

Pathway

THE PATHWAY

The Video Game Design Pathway at AVHS allows students to develop real-world skills in game design and development while earning valuable college credit. Through engaging courses like Video Game Design 1 & 2, AP Computer Science Principles, and AP Computer Science, students will learn to code, create art, and bring their game ideas to life. This hands-on experience prepares them for exciting careers in the growing gaming industry and provides a head start on college education.

BENEFITS

- CTE Completer Cord
- 12 College Units at the completion of the pathway
- Field Trips
- Compete in SkillsUSA
- Work with industry-standard tools
- Learn to code, design, and bring your ideas to life
- Explore careers in game design, programming, art, *AND MORE!!*

WHO IS IT FOR?
